

CLIMATE CHALLENGE: 1.5 DEGREES FILMS

Climate Emergency Resources

[Keep Scotland Beautiful](#) has compiled a list of useful resources to help guide those wanting to find out more about climate change:

Climate Change Science, Impacts and Adaptation

- [Climate Change: The Facts Video](#).
- [Carbon Map](#) helps us visualise how climate impacts will be experienced around the world.
- [UK Climate Projections](#), from the MET Office, explores observed and predicted climate impacts on the UK.
- [Adaptation Scotland](#) provides information about how places are adapting to the impacts of climate change. Read about the [Key Consequences](#) changing and how our places may need to change to become [Climate Ready](#).

Climate Change Communication

- [Climate Outreach](#) have a range of evidence-based resources to help guide climate change communication.
- [Climate Visuals](#) – The world's only evidence-based and impact focused climate photography resource.
- Video: [The Secret to Talking about Climate Change](#).

Climate Action: Worldwide and Scotland

- Visualise emissions reduction pledges worldwide and their impact using [Climate Action Tracker](#).
- [UN Climate Change Conference COP26](#)
- [Net Zero Nation](#) – information on Scotland's transition to net-zero emissions.
- You can view resources and content from the recent [Scotland's Climate Assembly](#).

Climate Change Learning Resources

- [Climate Action Week Lessons](#) for primary classes
- Resources for youthworkers: [Toolkit](#)
- [Carbon Literacy Project](#)

Organisations

- [Intergovernmental Panel on Climate Change](#)
- [Climate Change Committee \(UK\)](#)
- [Keep Scotland Beautiful](#)
- [Energy Saving Trust](#)
- [Zero Waste Scotland](#)
- [Way to Work](#)
- [Stop Climate Chaos Coalition](#)
- [Friends of the Earth Scotland](#)
- [Creative Carbon Scotland](#)
